The new Allrounder Golden Electric machines make use of consistent standardisation to offer an excellent price/performance ratio, e.g. through a fixed combination of distance between tie-bars, clamping force and injection unit size. The machines come in four sizes, 370, 470, 520 and 570 with clamping forces of 600, 1,000, 1,500 and 2,000 kN.

Arburg molding masks for staff, health care workers
Arburg presentó durante Chinapias 2017 sus máquinas básicas hidráulicas y eléctricas Allrounder, con las que mostró aplicaciones para tecnología médica. Con una Allrounder 370 E Golden Electric, con una fuerza de cierre de 600 kN, la compañía produjo piezas de conexión en Y para terapia intravenosa por goteo, en un tiempo de ciclo de 18 segundos.

Allrounder 370 E Golden Electric, de Arburg
For the mask project, Arburg is using two electric injection moulding machines: an Allrounder 570 A with a clamping force of 2,000 kN to produce the LSR masks at the Arburg Training Centre with a 4-cavity mould from Polar-Form; and an Allrounder 470 E Golden Electric with a clamping force of 1,000 kN and a 2-cavity mould from Foboha to produce the PP shields at its customer centre.

Arburg and partners produce sterilisable face masks for ...
Cost-effective automation made simple Arburg presents a complete production cell by combining an Allrounder 470 C Golden Edition with a Multilift Select robotic system. This excels not only in cost effectiveness, but also through exceptional ease of operation, due in no small part to the new Selogica "Set-up Assistant" module.

Arburg - Prototype Today
Arburg is using two electric injection moulding machines: an Allrounder 570 A to produce the LSR masks and an Allrounder 470 E Golden Electric to produce the PP shields. The masks are designed to be easily sterilized and worn multiple times, according to Thomas Walther, head of Arburg's application technology department.

Arburg begins molding masks for health care workers, staff
