1999 ASHRAE Handbook Preface This handbook describes heating, ventilating, and air conditioning for a broad range of applications. Most of the chapters from the 1995 ASHRAE Handbook have been revised for this volume to reflect current requirements and design approaches.

1999 ASHRAE Handbook Preface - packmangroup.com

All owners should request and/or require the design team to provide building and HVAC security (as defined in Chapter 59 of the 2019 ASHRAE Handbook—HVAC Applications). This security criteria should address outside-the-building influences (e.g., smoke, toxic fumes, flood, etc.) as well as influences inside the building.

CHAPTER 1. HVAC SYSTEM ANALYSIS AND SELECTION

For seismic design, HVAC systems and components need to be braced in accordance with local codes and the AHJ; see Chapter 56 and the ASHRAE Practical Guide for Seismic Restraint for details. Zoning of various areas for occupancy times and seasonal changes should be factored into system arrangements and types.
