NEJE Laser Engraver
In this case, the manual machine is free money. Yes, you might do the job better or faster on the CNC (or maybe not if the other two reasons disqualify it), but you can't even get started because the CNC is busy. 2. The Manual machine is cheaper and we can't afford Toolroom CNC. Manual is cheaper, there's no doubt about that.

When is Manual Machining Better than CNC? - CNCCookbook ...
Mach4 is our newest version of CNC motion control software. Mach4 was written from the ground up to be expandable, flexible, and extremely responsive for use with very large files. Mach3 was designed for simple hobby machines and still serves this purpose well.

Newfangled Solutions Mach4
Laser vs CNC Mill Precision. One of the most contributing factors to a laser purchase is the speed compared to a CNC Mill. A trotec laser is at least twice as fast as a router for most applications. A laser is able to cut thick material in one pass, where as a CNC Mill will need to do multiple passes to cut the same thickness.
