Dyson's New Bladeless Fans Aim to Replace Air Conditioning

Dyson Air Multiplier fan is probably the biggest innovations in household fans since fan was created in 1882. This is because it eliminates the fan blades as well as the buffering and turbulence which built on a normal electric fan. It also very hygienic where it is easily clean with just a cloth since it has no blades. (Dyson, 2010)

Dyson Marketing Analysis - UKEssays.com

Dyson fans keep your home cool and are much less bulky than a typical box fan. You may not realize it, but these fans can collect dust and other dirt particles over time. With basic household cleaning supplies, you can keep your Dyson fan in top condition during any hot weather. Part 1
