Basically, from this model, emotional intelligence is seen as an individual's self-perceptions of their emotional abilities, including behavioral and self-perceived abilities. An alternative label for the same construct is trait emotional self-efficacy. These traits aren't measured in the scientific sense but are instead measured by the respondent's self-report.

Emotional Intelligence: What is it, models of ...

Emotional intelligence is vastly different from what we refer to as general or more common intelligence (IQ). We see this demonstrated in a leader's ability to not only monitor their own emotions, but others as well. Having a high level of established emotional intelligence is an essential aspect of effective, authentic leadership.
