### (PDF) Evaluating Research in Academic Journals: A ...

Knowing the potential components of an academic journal will help you to determine which articles are research articles, and which are not, despite appearing in an academic journal. Note:even within a peer-reviewed publication, not all of these components are necessarily subject to the peer-review process. You will need to read a specific publication's editorial policies to determine whether their letters to the editor, book reviews, and news briefs are peer-reviewed prior to publication, or ...
