Granger, 2008; Schmitt, 2004). Within the language learning and teaching literature, Nattinger and DeCarrico (1992) argue for the lexical phrase as the pedagogically applicable unit of prefabricated language.

Formulaic Language in Native and Second Language Speakers ...

Formulaic Language and Acquisition in Children There is a certain amount of evidence of formulaic sequences being used as a learning strategy in children. It appears that first- and second-language acquisition in children is largely a function of attending to formulaic sequences in language input, adopting them for use, and later segmenting and analyzing them.

Formulaic Language in Acquisition and Production ...

Formulaic language (previously known as automatic speech or embolalia) is a linguistic term for verbal expressions that are fixed in form, often non-literal in meaning with attitudinal nuances, and closely related to communicative-pragmatic context. Along with idioms, expletives and proverbs, formulaic language includes pause fillers (e.g., "Like", "Er" or "Uhm") and conversational speech ...
