Learning plan Digital & Transformation - Capgemini Academy

The focus in the training will be on Scrum, because Scrum is the most widely used Agile development method worldwide. Scrum is a framework for the development and maintenance of complex products and is described in the Scrum Guide. In this one-day training you learn and experience what the Agile principles entail; how Scrum fills in this; what parts Scrum consists of and how you deal with this in practice.

Scrum Kickstart | Capgemini Academy

Scrum is the most widely used framework for Agile software development. In contrast to the simplicity of the Scrum framework itself, good application in practice is not obvious. One of the success factors of Scrum is an effective Scrum Master. In this training we go through all aspects of Scrum's roles, events and artifacts.

Professional Scrum Master™ | Capgemini Academy

Nowadays Scrum is the most widely used framework for Agile. As this is not only used for Software Development, but also for other types of projects we now offer the Scrum Master for Non-IT. A comprehensive Scrum Master course stripped of IT specifics, focused on how to adopt Scrum outside of Software Development.
