The SG500 is backwards-compatible with SG400 accessories, so if you already own a bypass tray for the SG400, you will be able to continue using it. This allows you to print on media up to 51" long (1295 mm). Like all Sawgrass printers, the SG500 performs its own automatic maintenance cycle for trouble-free printing.

Hi, I've been trying to stack three switches - a SG500-28P a SG500-52P and a SG500X-28P - the SG500s stack fine, however when I added the 500x to the stack, the unit deactivated itself and took itself off the network - not good as it was the core switch! Any ideas what's going on, are they using a di...
