Shades of Grey: The Road to High Saffron is Jasper Fforde at his weirdest. It contains a delightfully bizarre and humorous look at a post-apocalyptic world hundreds (if not thousands...the timeline is a bit vague) years in the future where a future species of "human" lives in a society structured on ones ability to see color.

Jasper Fforde's Shades of Grey surprised the hell out of me. I've been working with color for almost 60 years, and yet marvel at the world Fforde has spun out of everyday color theory. While there is humor, the story becomes darker, the characters more intense, the world more strange and disturbing with each turn of the page.

Shades of Grey: The Road to High Saffron is a 2009 dystopian novel by author Jasper Fforde. Although published before E.L. James's erotic novel 50 Shades of Grey, Fforde's work, which was originally simply titled Shades of Grey, never reached the mainstream popularity of James's very different novel and has since been renamed in part to distinguish it from the similarly titled erotic novel.
