Tmsa Ocimf

The Tanker Management and Self Assessment (TMSA) programme provides companies with a means to improve and measure their own safety management systems.

OCIMF - Ship Inspection Report Programme

OCIMF was formed in April 1970 in response to the growing public concern about marine pollution, particularly by oil, after the Torrey Canyon incident in 1967. In the early 1970s, a variety of anti-pollution initiatives were starting to emerge nationally, regionally and internationally, but with little coordination.

OCIMF - Oil Companies International Marine Forum - Home

OCIMF - Ship Inspection Report Programme

From Monday 4th of April 2016, OCIMF will officially end support for the SSLv3 protocol upon all the OCIMF programme websites. From that date, in order to access the SIRE, OVID, TMSA and MTIS websites, users should be using a modern internet browser such as Internet Explorer 8 or above, or a modern commercial alternative.

OCIMF - OVID

1 Under the Original 1993 Programme, the inspecting OCIMF Member was free to choose whatever inspection protocol and report format it desired. In 1997, the Uniform Vessel Inspection Procedure changed this. The Vessel Particular Questionnaire was a newly developed OCIMF document, also introduced in 1997 and was not part of the original programme.
